CAREER OBJECTIVE

Computer Science graduate with hands-on software development experience through a full-stack internship and application development projects. Experienced in developing responsive web applications using JavaScript, React.js, Next.js, Python, Django, REST APIs, SQL and NoSQL databases. Familiar with Java, Object-Oriented Programming, DBMS, SDLC, debugging, software testing, Git, GitHub and Agile development practices. Experienced in API integration, database interactions, application workflows, troubleshooting and collaborative software development.

SKILLS

Frontend:: React.js, Next.js, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3

Backend:: Node.js, Express.js, Django, REST APIs

Languages:: Java, JavaScript, TypeScript, Python, C++

Database:: PostgreSQL, MongoDB, SQL

Tools:: Git, GitHub, VS Code, Postman, Vercel

EXPERIENCE

Aneero Private Limited

Full Stack Developer

Remote

March – July 2026

- **Full Stack Development:** Built and maintained production-ready web features using Next.js, Django, and REST APIs in a collaborative development environment.
- **Frontend Development:** Developed responsive UI components and integrated REST APIs for chatbot, inquiry management, and user workflow features.
- **API Integration:** Optimized frontend-backend data flow, database interactions, debugging, and feature enhancements across multiple modules.
- **Development Workflow:** Used GitHub, Postman, AI-assisted development tools, code reviews, and Agile workflows to accelerate development and deployment.

PROJECTS

StayNest – Full Stack Vacation Rental Platform

In Progress

- **Tech Stack:** Next.js, TypeScript, Tailwind CSS, Django REST Framework, PostgreSQL, Cloudinary.
- **Property Platform:** Built a full-stack vacation rental platform with secure authentication, property listings, booking workflows, and responsive user interfaces.
- **Core Features:** Implemented search, filtering, wishlists, reviews, image uploads, and role-based dashboards for guests, hosts, and administrators.
- **Scalable Architecture:** Designed REST APIs with PostgreSQL and planned AI-powered recommendations, smart property descriptions, and payment integration.

StackSaver AI – AI SaaS Audit & Recommendation Platform

Live

- **Tech Stack:** Next.js, TypeScript, Tailwind CSS, Vitest.
- **AI Audit Platform:** Developed an AI-powered SaaS platform that analyzes software stacks and generates optimization recommendations.
- **Frontend Development:** Built responsive dashboards, reusable UI components, and structured recommendation workflows focused on usability and performance.
- **Testing & Deployment:** Implemented automated testing with Vitest and deployed production builds on Vercel.

Apna Intern – Job & Internship Management Platform

Live

- **Tech Stack:** React.js, Tailwind CSS, REST API Integration.
- **Frontend Development:** Built responsive job listings, student profiles, company dashboards, and application workflows in a collaborative team project.
- **UI & API Integration:** Developed reusable React components and integrated REST APIs for job posting, candidate management, and application tracking.
- **User Experience:** Improved responsive layouts and streamlined workflows for students, recruiters, and companies.

ACHIEVEMENTS

India Runs Hackathon: Participated in the India Runs Hackathon by Redrob AI, hosted on Hack2skill, with a Rs. 50 lakh prize pool and completed multiple submission tracks.

CoCubes Employability Assessment: 595.

EDUCATION

Baderia Global Institute of Engineering & Management

Bachelor of Technology - Computer Science

Jabalpur, India

2022 – 2026
